

## Title: Master the Hyperangulated Blade 🔥

Dear [Learner's First Name],

This is your chance to step into one of the most innovative programs for essential skills in airway management—mastering the hyperangulated video laryngoscope.

 Where: [add location]

 When: [add date and time]

This session is part of The Protected Airway Program, and it's designed to help you build the real-world skills to elevate your airway practice. You'll explore:

- ◆ How hyperangulated blades \*break the rules\* of traditional geometry
- ◆ Why seeing the cords isn't the same as delivering the tube
- ◆ How to troubleshoot using deliberate, controlled blade and stylet movements

### What to Bring – Seriously, Don't Forget

- ✓ Your mobile device
- ✓ Headphones
- ✓ Your focus + energy

This is an immersive, integrated learning space with enhanced digital content—you'll need your device to access the training materials that guide your hands-on practice.

### Get a Head Start – Visit the Digital Program

 Visit this program's [digital home](#), bookmark, and review the content anytime.

Get ready to level up your airway skills in one of the coolest, most cutting-edge sessions we offer. See you there!
